Subject: ED2 Programme Delivery, Letter of Commitment

We are writing to formally confirm our commitment to the successful delivery of the Load Related Expenditure (LRE) programme [REDACTED]

As your appointed delivery partner, Aureos Energy Ltd recognises the strategic importance of these projects to Scottish & Southern Electricity Network's (SSEN) operational goals, regulatory obligations, and long-term infrastructure resilience and acknowledge that this letter will be submitted to Ofgem as part of our LRE re-opener submission.

We are fully committed to delivering all projects within the LRE programme to the highest standards of safety, quality, and performance, in accordance with the agreed scope, schedule, and budget as indicated in the LRE re-opener submission subject to any mutually agreed changes that will be managed in accordance with the Agreement.

Subject to Ofgem's approval of the LRE re-opener submission, we confirm the following:

- We have a deliverable, fully resourced schedule that meets SSEN's requirements defined under the LRE programme.
- We have mobilised and will continue to maintain the necessary resources, including skilled personnel, equipment, and supply chain capacity, to ensure uninterrupted progress of the LRE programme.
- Subject to the issuance of construction purchase orders for the delivery of the proposed programme and SSEN scheduling the necessary outages, we will deliver the agreed outputs defined in this LRE re-opener.

We will continue to work collaboratively with your teams and stakeholders to ensure alignment, responsiveness, and shared success throughout the delivery lifecycle, maintaining trust and accountability and reaffirming our commitment to deliver these projects to the highest standards.
