Minutes

Item No.	Agenda Item
1.	Quarterly Business Performance Update – Chris Burchell
	CB gave an overview of the quarterly performance on areas including safety; customer service performance; environmental performance; and a colleague update.
	An update on the Distribution System Operator (DSO) incentive performance was given, with SSEN improving performance in both the survey and the Panel report compared to 23/24.

 the strong support received. ED3 – Clothilde Cantegreil Looking ahead to ED3, members reviewed the Terms of Reference; template Challeng Actions logs; and proposed ways of working There was a strong emphasis on transparency (publishing ISG materials on website), recognition of stakeholder fatigue, and alignment with Ofgem and the Regional Energy Strategic Plans (RESPs). Consumer Value Framework – Ryan McKay RM gave an overview of the Consumer Value Framework as requested by Ofgem. Concerns raised by the ISG on benchmarking risks, relevance and accessibility to consund customer segmentation. SSEN is trialling "six capitals framework" (a framework that is used to assess and com the value an organisation creates across multiple dimensions, or capitals beyond just for the consumer of the con	,

Concerns raised by the ISG on benchmarking risks, relevance and accessibility to consand customer segmentation. SSEN is trialling "six capitals framework" (a framework that is used to assess and com	sumers,
and customer segmentation. SSEN is trialling "six capitals framework" (a framework that is used to assess and com	sumers,
approaches and Loop tools.	
Emphasis around the need for a strong narrative and sector leadership, especially arou explaining value beyond just bill reductions.	und
5. ED3 Stakeholder Engagement – Graeme Keddie and Lyndsey Stainton	
The SSEN team outlined a phased, targeted approach to engagement for ED3, learnin ED2 and other sectors (notably water, gas and transmission).	g from
There will be a strong focus on quality; reducing stakeholder fatigue; and sharing data where possible.	openly
ISG supported a fifth phase, in addition to the four proposed phases, for ongoing engage	gement.
6. ED3 Customer Priorities Research – Create Clarity	
Create Clarity outlined Customer Priorities research being conducted, both qualitative quantitative with six consumer groups.	and
Concerns raised about digital exclusion, segmentation and definition of 'Future Consur	ner'.
An invitation was extended to all ISG members to observe the focus groups; however t results will be shared with ISG once concluded.	:he full
7. ED3 Program Basics – Carys Periam, Clothilde Cantegreil and Ryan McKay	
Outline of ED3 timeline, governance, and workstream structure, emphasising cross-fur collaboration.	nctional
Focus on breaking silos and empowering workstream leads to take more responsibility	,
8. Regulation Update – Gwen McNaughton and Clothilde Cantegreil	

Summary of recent Ofgem working groups, noting that gaps remain on key areas such as cost assessment and TOTEX Incentive Mechanism (TIM). Noted the need for improved reopener processes. Ongoing bilaterals with Ofgem are helpful.	
Ofgem's new proposal under the Business Plan Incentive for early, stretching commitments with potential rewards if rolled out sector wide were discussed with the ISG asking for sight of any proposed submissions	
AOB, Reflections and look forward - All Date of next ISG is 7 October and will take place via Microsoft Teams
