

Southern Electric Power Distribution plc

Scottish Hydro Electric Power Distribution plc

Statement of Compliance in relation to Affiliate Independent Distribution Network Operation (AIDNO)

Restriction on use of confidential information and independence of the distribution network operators from AIDNOs

1. Introduction

SSE plc group have two Distribution Network Operators (Southern Electric Power Distribution plc (“SEPD”), and Scottish Hydro Electric Power Distribution plc (“SHEPD”), together, the ‘Licensees’. The Licensees are subsidiaries of SSE plc¹. These Boards produce a separate Compliance statement under the conditions of Standard Licence Condition 42 as requested by the Office of Gas and Electricity Markets Authority (“the Authority”)

Optimal Power Networks Limited remains a wholly owned subsidiary of SSE Enterprise Limited “SSEE” whose ultimate parent company is SSE plc. Optimal Power Networks Limited operates under a separate distribution licence from the Licensees, thus becoming an Affiliate Independent Distribution Network Operator (AIDNO) which will operate across Great Britain including within the Distribution Service Area of the Licensees.

The purpose of this Statement of Compliance (“the Statement”) is to set out the practices, procedures and systems adopted by the Licensees, to ensure compliance with relevant licence conditions on restrictions on the use of confidential information and the independence of the licensed distribution activities.

The statement is required under Standard Condition 42A of the electricity distribution licences of both SEPD and SHEPD.

The Boards of SEPD and SHEPD shall take all reasonable steps to ensure compliance with the terms of the Statement. The Boards of SEPD and SHEPD will, with the approval of the Authority , revise the information set out in the Statement as circumstances necessitate such that the information herein remains accurate in all material respects.

2. Contents of the Statement

¹ SSE plc is the ultimate parent company of both SEPD and SHEPD. The direct parent company of SEPD and SHEPD is SSEN Distribution Limited (a direct subsidiary of Scottish and Southern Energy Power Distribution Limited).

The Statement is made in accordance with the provisions of Standard Condition 42A of the electricity distribution licence granted to SEPD and SHEPD:

Standard Condition 42A of the electricity distribution licence requires the licensees to have in place an Affiliate IDNO Compliance Statement setting out the practices, procedures and systems that prevent any Affiliate IDNO from having access to Confidential Information except and to the extent that such information:

- a) is made available on an equal basis to all Electricity Distributors;*
- b) is referable to a customer who at the time to which the information relates was a customer of the Affiliate IDNO; or*
- c) is of a type that has been confirmed by the Authority in writing as corporate information.*

The Statement sets out the practices, procedures and systems adopted by the Licensees to:

- maintain the full managerial and operational independence of the Licensees from the AIDNO;
- manage access to sites (whether physical or electronic) where Confidential Information is stored and to persons with knowledge of Confidential Information; and
- manage the transfer of employees from the Distribution Business to the AIDNO.

3. Managerial and operational independence

To maintain the full managerial and operational independence of the Licensees, the two businesses are managerially and operationally run under the governance of the Boards of SEPD and SHEPD (“The Boards”) and independently from other SSE plc interests, including Optimal Power Networks Limited.

The Boards of SEPD and SHEPD have a common set of directors for both companies. The purpose of the Boards is to set the strategic aims, supervise the management and monitor performance of the Licensees.

Currently, both Boards comprise three executive directors and five non-executive directors. Executive directors are wholly engaged in the day-to-day management and operation of the Licensees and not involved in the activities of affiliates or related undertakings. Two of the non-executive directors are Sufficiently Independent Directors as required by the terms of the Distribution Licence. The non-executive Chair is also an executive director of SSE plc Board.

The Boards of the Licensees have appointed an Internal Business Separation Compliance Officer and External Business Separation Compliance Officer to advise the Boards on business separation requirements. The Internal Business Separation Compliance Officer is independent of the management structure of SEPD and SHEPD and reports through our General Counsel Team. The External Business Separation Compliance Officer is Henderson Loggie, chartered accountants. Both Officers report to the Boards on an annual basis.

Corporate governance procedures, which have been advised on by the External Business Separation Compliance Officer for the purpose of maintaining managerial and operational independence, are in place between the Boards of the Licensees and the SSE plc Board. The terms of reference for the Boards of SEPD and SHEPD and capital authorisation corporate policy are regularly reviewed to maintain the independence of the Boards and reinforce the corporate governance procedures. The performance of the Licensees is reported to the SSE plc Board.

Persons engaged in the day-to-day management or operation of the Licensees are directly employed by the relevant legal entity or engaged under the provisions of an agreement that makes reference to business separation requirements set out in the Statement. The standard terms of employment of SSE plc group companies include clauses on observing the business separation requirements of the Licensees as set out in the Statement. Deliberate breach of the confidentiality requirements by an employee would lead to disciplinary action.

Induction procedures for new staff include training on the requirements of Standard Condition 42A of the electricity distribution licence. All staff have access to the internal processes and procedures that enact the provisions of the Statement. Refresher training is provided to staff engaged in high-risk activities annually.

4. Access to Confidential Information

As far as possible, Confidential Information is secured in premises or in systems solely used by the Licensees, or with persons wholly employed in the day-to-day operations of the Licensees. Where this is not possible, appropriate control measures are put in place to restrict access to Confidential Information:

- Wherever possible, employees of the Licensees are located in premises separate from those of the AIDNO. In those instances where facilities or property are shared, employees of the Licensees are located in separate areas. In either case, site access controls are in place restricting access to authorised persons only. All visitors are subject to the same access controls and accompanied when on site.
- Wherever possible, the Licensees will use IT systems and storage separate from those of the AIDNO. In those instances where IT equipment is shared, access is controlled through a security manager product that provides a number of security profiles, thus restricting access to authorised persons only. Further levels of security are provided through the authorisation process, physical access password, session controls and training.
- Where the Licensees use services from affiliates or relevant undertakings, a Service Level Agreement (SLA) or formal contract is in place. These ensure and demonstrate that the services: are obtained in an efficient and economical manner; do not involve a cross subsidy given or received; do not restrict, distort or prevent competition in any manner; and the provisions of the Statement are adhered to in full. Such agreements are subject to regular reviews of performance and utilise transparent pricing provisions.

- Where a Licensee is required to provide services to other industry parties under the terms of its licence or statutory obligations, these are subject to standard industry agreements and charging arrangements.

Where the Licensees believe that Confidential Information held in relation to a customer of an AIDNO should not be regarded as confidential, it will make a formal request to that AIDNO to treat the information as non-confidential. Until such consent is granted the information concerned will remain protected.

5. Staff Transfers

Staff transfers from the Licensees to the AIDNO, where the matters in the Statement are of concern, are discussed between the Boards and the Internal Business Separation Compliance Officer where deemed necessary. If required, in addition, the External Business Separation Compliance Officer will advise on the appropriate action necessary to protect the Confidential Information and the managerial and operational independence of the Licensees.

6. Ensuring compliance with the Statement

In accordance with SSE plc risk management practices, the Boards adopt multiple methods for ensuring compliance with the Statement:

- All internal business processes and procedures are easily accessible and subject to regular review.
- Staff are trained and refresher training is conducted.
- Day-to-day support, guidance and, where appropriate, monitoring are provided by Distribution Business Assurance and Regulation teams.
- The Internal Business Separation Compliance Officer provides advice and conducts regular reviews of business practices.
- The External Business Separation Compliance Officer provides advice and conducts an annual review of compliance with the Statement.
- SSE plc internal Group Compliance function will undertake an annual audit of compliance with the Statement.
- Prepare AIDNO Compliance Report (after receiving the External Business Separation Compliance Officer's report) setting out the licensee's compliance including details of any investigations conducted by the Compliance Officer.

The Boards of SEPD and SHEPD are responsible for compliance with the Statement and, through the Internal Business Separation Compliance Officer and External Business Separation Compliance Officer, receive reports on business practices.

7. Breach reporting and complaints

The Distribution Business Assurance Team will record and investigate any alleged breach of the Statement in consultation with the Internal Business Separation Compliance Officer and will maintain the business separation policy.

For complaints, a procedure has been agreed with the External Business Separation Compliance Officer to notify them of any complaint that arises. Further investigation may then be undertaken by the External Business Separation Compliance Officer supported by the Internal Business Separation Compliance Officer.

8. Contact

Enquiries in relation to this statement should, in the first instance, be addressed to:
