

From: [REDACTED] On Behalf Of Connections Sent: 03 December 2015 10:26 To:
[REDACTED] Subject: FW: Tender for new supply for
[REDACTED]

Good Morning,

As per my telephone conversation with [REDACTED] on the 03/12/2015,

I have attached an application form that will need to be filled in and sent back to
connections@sse.com or by post to:

Connections and Engineering Scottish & Southern Energy Power Distribution Walton Park Walton
Road Cosham PO6 1UJ

Can you also please include:

1. Location Map – Suitable location plans can be obtained by using an A-Z of street maps or through
websites such as: www.multimap.com or www.maps.google.co.uk. We would suggest using a scale
of 1:5000 to 1:10000 for a rural location and 1:500 for an urban location. The site location should be
highlighted on the plan.

2. Site Layout Plan –This provides more detail on how the site is laid out. We will need you to mark
where you would like the supply to be installed, including the cable route and the meter position.
Please also clearly mark the boundary of your property. A suggested scale for the layout plan is
1:500.

3. Photos if possible showing the layout of the land where the new supply is to be installed.

Once you have sent back the completed form and plans by email to connections@sse.com or by
post, we will forward your completed application to the local depot and one of our Connection
Quoters will contact you within 5 working days.

If you have any questions or concerns or for any future jobs you need to raise, please contact our
Connections and Engineering Department on 0800 048 3516 or email us again at
connections@sse.com.

For any future requests you can apply online using the link <http://www.ssepd.co.uk/Connections/>

Kind Regards

Connection and Engineering SSEPD | Walton Park, Walton Road, PO6 1UJ

If you need a new connection where we own the electricity network, did you know you have a choice?

For more information please - www.ssepd.co.uk/ConnectionsYouHaveaChoice/
